Skills

- **Languages:** C, C++, Java, Python, HTML5, CSS3, JavaScript, PHP
- **Databases:** MySQL, MongoDB
- **Cloud:** Firebase
- **Frameworks:** Tailwind CSS, Node.js, React, Express.js
- **Tools/Platforms:** Git, GitHub, Postman, Figma, Visual Studio Code
- **Soft Skills:** Problem-solving, Team Player, Adaptability

Projects

Flood Prediction System | Link Sep '25

- Built an artificial intelligence prediction model that ingests multiple core data sources, including live weather APIs, digital elevation models, and historical records to accurately forecast flood-susceptible regions.
- Crafted an interactive React-based interface featuring a GIS map for real-time alerts, guided evacuation routing to verified safe shelters, and a transparent relief-fund dashboard.
- Validated the model's effectiveness by attaining 94% accuracy during historical back-testing.
- **Tech Stack:** Python, React, JavaScript, HTML5, CSS3, REST APIs

Udyog Saarthi | Link Mar '25

- Designed a progressive web app supporting adults under the 4% reservation scheme, evaluating accessibility and usability with 15–20 testers.
- Assembled a structured library of 20+ job-coaching materials, 10+ training modules, and curated opportunities within a minimal, user-centric layout.
- Reduced navigation effort by 35% after refining UI flow, improving discoverability, and simplifying interaction pathways.
- **Tech Stack:** HTML5, CSS3, JavaScript, Tailwind CSS, jQuery, PHP

Training

Logic Building, Programming and Data Structures | Link Jun '25 – Jul '25

- Explored core data structures—arrays, linked lists, stacks, queues, trees, graphs, and hash tables-to strengthen reasoning about time & space complexity.
- Formulated robust solutions for computational tasks by comparing algorithmic trade-offs and applying recursion and memoization techniques.
- Constructed a dynamic Grocery Management System offering real-time inventory tracking, low-stock warnings, fast product lookup, efficient cart flow, and a dual light/dark UI for improved experience.

Certificates

- Using Atlas Vector Search for RAG Applications | MongoDB | **Certificate** Jun '25
- Privacy and Security in Online Social Media | NPTEL | **Certificate** May '25
- C Programming Bootcamp | Udemy | **Certificate** Feb '24
- The Bits and Bytes of Computer Networking | Coursera | **Certificate** Sep '24
- Data Structures and Algorithm | iamneo | **Certificate** Dec '24

Achievements

- Solved 100+ problems on LeetCode | **Link** Sep '25
- 3-Star Silver Rating (Java) | **HackerRank** Mar '25
- Code A Haunt Hackathon Participation | **Link** Feb '24

Education

- Lovely Professional University Punjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.39** Aug '23 – Present

- Army Public School Jalandhar, Punjab
  Intermediate; **Percentage: 87%** Apr '22 – Mar '23

- Army Public School Sagar, Madhya Pradesh
  Matriculation; **Percentage: 95%** Apr '20 – Mar '21
